GAS STUMP

— GAS SLEEVE SUPPORT —

Why use the Gas Stump?

- Gas Stump will protect your PEX pipe from UV rays
- Gas Stump suitable for all fire zone areas
- Gas Stumps allows use of PEX gas system right through to the meter (no copper or gal pipe required)
- Gas Stump creates a strong base, strengthening and stabilising the meter. Prevents other tradespersons disturbing your installation.
- Best plumbers solution to meet the current standards • Quick installation • Save time and money
- Supports gas safety regulations in relation to mechanical joints in the wall

Currently only suited for PEX crimped gas pipe systems
